

WAS IST WAS

FOREIGN RIGHTS CATALOGUE 2022

TESSLOFF

From experts for discoverers

In times like these, who doesn't long to immerse themselves in foreign worlds and simply experience beautiful things? With our new titles, this will definitely succeed!

We are happy to present WAS IST WAS My World for the very little ones! Funny stories and cheeky illustrations tell familiar situations from children's everyday lives and gently explain children from the age of 2 their first factual knowledge at eye level.

Ingeniously Clever! introduces familiar names and new faces from the natural sciences to art and culture and presents ground-breaking discoveries that changed the world.

The new Space Atlas takes children on a galactic space tour and presents background knowledge as well as current research results. And with Icebreaker Polarstern young readers explore this impressive research ship and go on an expedition to icy worlds.

Enjoy our exciting novelties and strong backlist titles and feel free to contact us with your queries and questions.

Have fun discovering and stay curious!

Your Tessloff Foreign Rights Team

Knowledge for small and grown-up explorers

The motivation of WAS IST WAS:

- ▶ Introducing children to knowledge at eye level
- ▶ Encouraging children in their curiosity
- ▶ Making children strong and competent for the small and big challenges of the world

WAS IST WAS stands for:

- ▶ Knowledge at the latest state of research
- ▶ Scientifically sound, high quality and always fun
- ▶ Made for all curious minds and adventurers

More than
100 MILLION COPIES
sold worldwide

What our licensees are saying:

Over
20 MILLION COPIES
sold in 10 years

DOLPHIN MEDIA, CHINA

What do you appreciate most about WAS IST WAS?

Chen Lin, Editor in Chief: Every WAS IST WAS author can bend down and stand side by side with children. Science can be experienced through feelings, gentle knowledge transfer and warmth.

TESSLOFF ES BABILON, HUNGARY

What makes WAS IST WAS successful in the Hungarian book market?

Eva Babai, CEO: The books move with the times and are always up to date. Furthermore WAS IST WAS is also available for kindergarten and pre-school children. That's why we are very pleased to be the market leader in the children's non-fiction segment in Hungary with WAS IST WAS.

SPECIAL EDITION

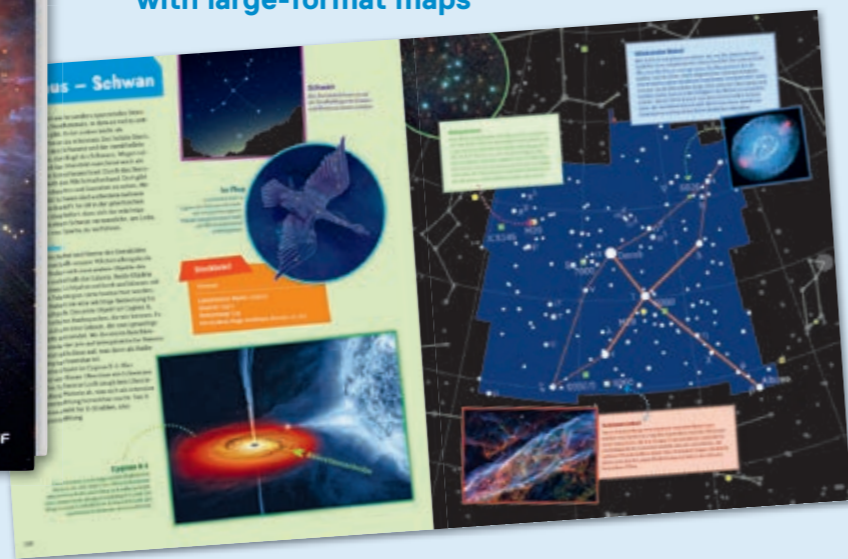

Explore more!

A galactic space tour!

- ▶ Special background knowledge and current results from space research
- ▶ Identifying stars and constellations easily with large-format maps

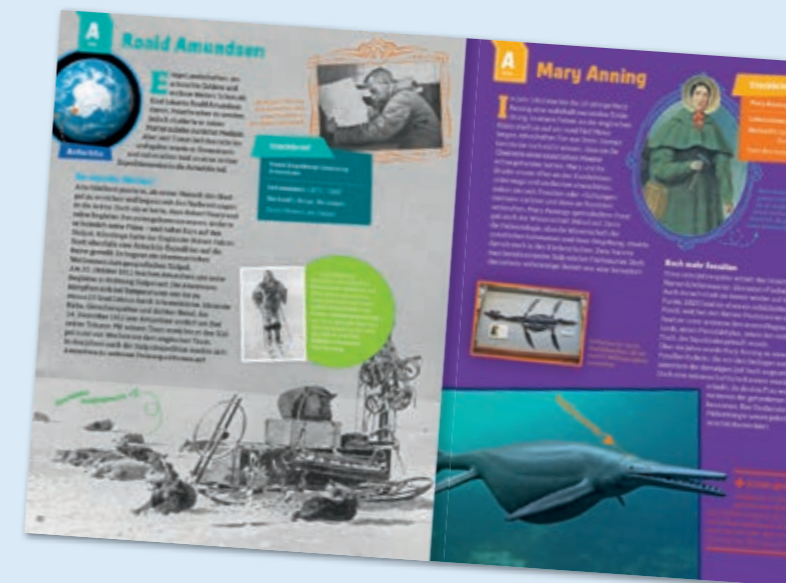

Space Atlas
by Dr. Manfred Baur
224 pp, HC, 26.8 x 31 cm, 4c, 8+

Who invented it?

- ▶ Ingenious personalities from the world of chemistry, biology, physics, music, medicine and culture
- ▶ From A for Mary Anning to Z for Konrad Zuse – women and men whose ground-breaking discoveries changed the world
- ▶ Introduces familiar names and new faces from the natural sciences to art and culture and from ancient scholars to young scientists

Ingeniously Clever! Brilliant Minds ... and Their Ideas
by Andrea Weller-Essers
192 pp, HC, 22.8 x 29.5 cm, 4c, 8+

Researching climate change

- ▶ Amazing facts and cutting-edge results about the research icebreaker Polarstern
- ▶ Written by Polarstern expedition member Dr. Tim Kalvelage

Polarstern. Icebreaker in the Arctic
by Dr. Tim Kalvelage
96 pp, HC, 23 x 27.8 cm, 4c, 8+

What? Why? Where? When?

- ▶ Clear answers to the most clever and funny questions
- ▶ Great mix of topics: from earth and animals to space and technology to history and sports

The Big Book of Answers
192 pp, HC, 23 x 27.8 cm, 8+

The World of Plants
by Dr. Manfred Baur

Fresh and Green!

- ▶ Surprising insights into over 160 species of plants
- ▶ With great photos and exciting extra knowledge

Ingenious Animals ... and Their Tricks
by Andrea Weller-Essers

Just Amazing!

- ▶ Over 700 photos, close-up shots and detailed views
- ▶ Packed with short, informative animal facts

World Atlas
by Dr. Manfred Baur
HC, 232 pp, 26.8 x 31 cm, 8+

Explore the World!

- ▶ More than 80 physical and political high-quality maps
- ▶ All about continents, regions, climates, people and cultures

Horses & Ponies
by Silke Behling

Wild and Beautiful!

- ▶ Information on 128 horse breeds
- ▶ Facts about care, riding, history and horse breeding

Our Body
by Andrea Weller-Essers

It's a Miracle!

- ▶ Over 50 body parts in great detail
- ▶ Exciting insights into how the body works

The International Space Station
by Dr. Manfred Baur
HC, 96 pp, 23 x 28 cm, 8+

Discover Space!

- ▶ Everything about the ISS and life in space
- ▶ See our home planet from a whole new angle

The Book
by Dr. Bernd Flessner
HC, 64 pp, 23 x 28 cm, 8+

From Idea to Book!

- ▶ Explains how a book is made
- ▶ Fascinating knowledge about one of the greatest cultural assets of mankind

Evolution
by Dr. Manfred Baur

The Wonder of Life!

- ▶ An insight into the history of life on earth and the immeasurable diversity of species

“ *The best questions are still asked by children! They may sound simple, but they're often tricky – and make many adults sweat* ”

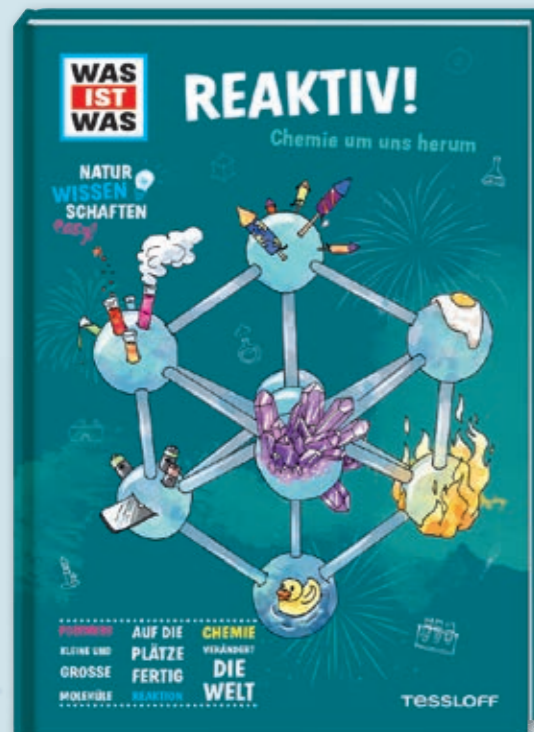

ANDREA WELLER-ESSERS

- Mostly writes for children and young people. But sometimes also for curious adults
- Finds it exciting how laptops, computers and smartphones can be used to better understand the world (or math and languages)
- Almost became a teacher for German and Philosophy but changed her mind at the last minute and became an author

11+

NATURAL SCIENCES BOOK SERIES

Science? Ingeniously simple!

Natural Sciences easy! Chemistry
Reactive!
Chemistry in Daily Life

► **What chemical reactions take place when eggs are fried?** How does the colour get into the fireworks? And where do we encounter chemical elements in everyday life? Here everything deals with temperature, volume and energy. From sticky gecko feet to rockets taking off, the book vividly illustrates how researchers have used these phenomena for research and technology and shows that chemistry is just everywhere in our daily life!

Entertaining texts

► **Welcome to the exciting world of numbers!** From tiny to huge numbers, from half numbers to whole numbers, even numbers and odd numbers, from divisible numbers and fractions, roots and (unsolvable) equations. This outstanding book explains the basics of mathematics and illustrates complex relationships in a way that is suitable for children.

Descriptive graphics

Natural Sciences easy! Mathematics*
Numbers Everywhere!
Rational, Imaginary, Infinite

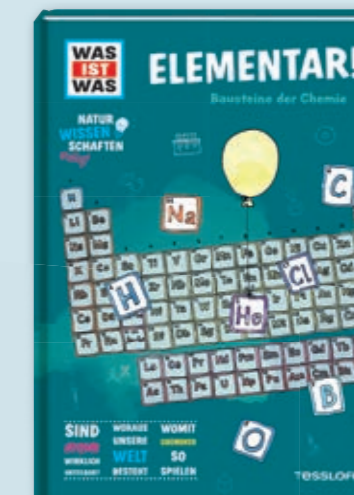

Natural Sciences easy! Biology
The Cell.
Element of Life

► **What is a cell?** How do cells feed, grow and multiply? How does a cell know what to do and where does it get its energy? Scientifically sound, yet entertaining, the book presents everything young readers need to know about the elements of life!

Natural Sciences easy! Biology
Me and the Virus.
Exploring the Masters of Transformation

► **How were viruses discovered?** How do they spread? What can we do against dangerous viruses? Exciting and descriptive, this book shows that viruses are as old as life on earth. They „hijack“ cells of living beings, which can lead to diseases. But not all viruses are dangerous!

Natural Sciences easy! Chemistry
Elementary!
The Components of Chemistry

► **What are elements, atoms and other particles?** What kind of laws do chemical reactions follow? Whether it's the structure of the periodic table, a look over the shoulders of famous scientists or insights into atomic models: young readers here easily learn the basics of chemistry.

Natural Sciences easy! Physics
Einstein's Universe.
Theory of Relativity. Ingeniously simple!

► **How did Einstein work and where can we use his insights in our everyday lives?** Vividly, with exciting stories and easy-to-understand illustrations, this book explains everything about gravity and what Einstein's Theory of Relativity is all about.

Natural Sciences easy! Physics
Light and Atoms.
Wonderland of the Quanta

► **What is light and what are quanta?** What are atoms made of? Welcome to the world of molecules, atoms and light. After presenting the most important basics, this book introduces readers to the mutability of quantum objects and explains Quantum Physics just for everyone.

AUDIO PLAYS ARE REAL ALL-ROUNDERS! THEY ...

- ... promote children's creativity and language development
- ... can be listened to at any time at home or on the road, as a sideline or as a main activity
- ... inspire the child's imagination

In Germany, audio plays and audio books play an important role in children's everyday lives. Generations have been growing up with well-known and much-loved audio plays.

WAS IST WAS AUDIO ENTERTAINMENT

WAS IST WAS has been successfully publishing audio plays for young listeners for 20 years and entertains millions of children with exciting favourite topics.

KID'S AUDIO ENTERTAINMENT IS DIGITAL

Many children worldwide operate smartphones and tablets themselves and select their favourite audio plays from streaming services. WAS IST WAS audio plays are among the bestsellers here - for children worldwide!
