**MANY PEOPLE THINK
BOOKS CAN NOT
CHANGE THE WORLD.**

I know it better.

We celebrate 60 years of WAS IST WAS!

What drives us humans? How could we invent computers, bicycles, cameras and many other essential things?

It's obvious! It is the human thirst for discovery, our very own curiosity, which lives in each of us and drives us forward every day.

It was this curiosity that prompted publisher Ragnar Tessloff to launch the first WAS IST WAS books in Germany 60 years ago. His publishing approach of introducing children to factual knowledge in a playful way and at eye level, and encouraging their curiosity still motivates us today. Because our curiosity is also boundless!

We, that is the people behind WAS IST WAS: authors, illustrators, editors and all other publishing staff. Our motivation is to convey expert knowledge with ease and big fun. Because children are curious all by themselves, they ask questions all the time - we want to answer them simply and easy to understand and open up new horizons with our books.

And: our success proves us right! Today WAS IST WAS has a firm place on the bookshelves and in the hearts of curious children (and parents) all over the world.

60 years of WAS IST WAS - for us a great opportunity to give you a comprehensive overview of the variety of products and the power of the brand WAS IST WAS.

Well? Have you also been gripped by the desire to discover? Then dive into our new WAS IST WAS foreign rights catalogue and into the fascinating world of knowledge.

Have fun discovering! And don't forget: Stay curious!

All the best
Your Tessloff Foreign Rights Team

Simpler and therefore better

since 1961

Inspired by this motto founder Ragnar Tessloff published the first WAS IST WAS book on the German market in 1961 - 60 years ago.

The motivation of WAS IST WAS:

- Introducing children to knowledge at eye level
- Encouraging children in their curiosity
- Making children strong and competent for the small and big challenges of the world

From EXPERTS for DISCOVERERS:

WAS IST WAS delivers knowledge at the highest level: scientifically sound, at the latest state of research, high quality and always with fun. Made for all curious minds and adventurers.

WAS IST WAS today:

- The international knowledge brand
- More than 45 languages
- More than 100 countries
- More than 100 million copies sold worldwide

What our licensees are saying:

MIZAN PUBLISHING, INDONESIA

What makes WAS IST WAS successful on the Indonesian children's book market?

Sari Meutia, CEO: Indonesia is a large country with a big number of population but a small number of scientists. With WAS IST WAS, we hope to inspire many Indonesian children to study science and become scientists in the future.

Over 20 MILLION COPIES sold in 10 years

DOLPHIN MEDIA, CHINA

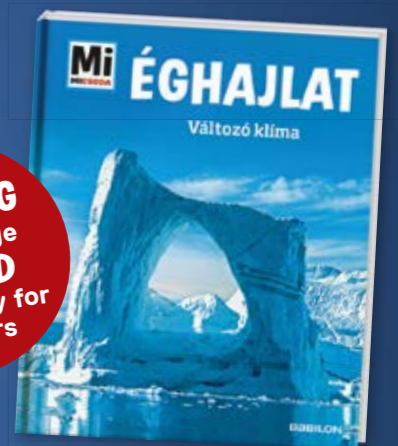

What do you appreciate most about WAS IST WAS?

Chen Lin, Editor in Chief: Every WAS IST WAS author can bend down and stand side by side with children. Science can be experienced through feelings, gentle knowledge transfer and warmth.

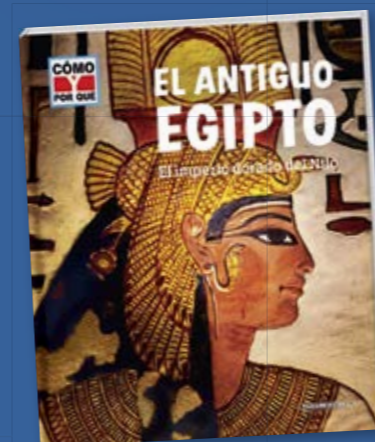

TESSLOFF ES BABILON, HUNGARY

What makes WAS IST WAS successful in the Hungarian book market?

Eva Babai, CEO: The books move with the times and are always up to date. Furthermore WAS IST WAS is also available for kindergarten and pre-school children. That's why we are very pleased to be the market leader in the children's non-fiction segment in Hungary with WAS IST WAS.

LEADING knowledge BRAND in Hungary for 30 years

PANAMERICANA, COLUMBIA

What makes WAS IST WAS successful in the Columbian book market?

Cesar Alberto Cardozo Tovar, Editor in Chief: The authors and information in the books, the photos and especially the new layout are very appealing for young readers. Also the different topics this series covers. The readers find topics like ancient cultures, animals, robotics and much more in the same series.

SPECIAL EDITION

Explore more!

Who invented it?

- ▶ Ingenious personalities from the world of chemistry, biology, physics, music, medicine and culture
- ▶ Why are there so few famous female inventors in history?
- ▶ Exciting extra knowledge on the fields of bionics, aviation, space, robotics and genetics

Ingenious Minds ... and Their Ideas*
by Andrea Weller-Essers

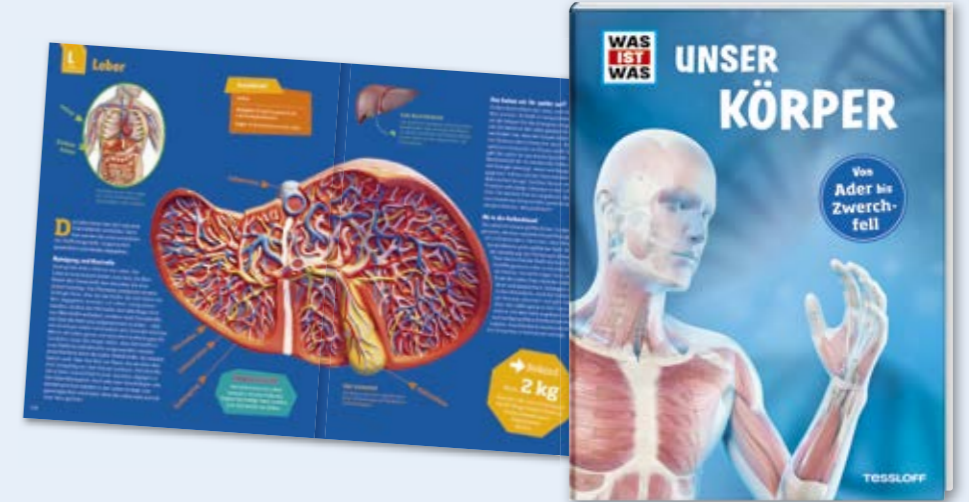

ANDREA WELLER-ESSERS

- Mostly writes for children and young people. But sometimes also for curious adults
- Finds it exciting how laptops, computers and smartphones can be used to better understand the world (or math and languages)
- Almost became a teacher for German and Philosophy but changed her mind at the last minute and became an author

“The best questions are still asked by children! They may sound simple, but they're often tricky – and make many adults sweat”

It's a Miracle!

- ▶ Over 50 body parts in great detail
- ▶ Exciting insights into how the body works
- ▶ Over 500 brilliant photos and illustrations

Our Body
by Andrea Weller-Essers

Fresh and Green!

- ▶ Colourful and surprising insights into the world of plants
- ▶ Over 160 species of plants, with great photos and exciting extra knowledge

The World of Plants
by Dr. Manfred Baur

Just Amazing!

- ▶ Over 700 photos, close-up shots and detailed views
- ▶ Packed with short, informative animal facts

Ingenious Animals ... and Their Tricks
by Andrea Weller-Essers

World Atlas
by Dr. Manfred Baur
HC, 232 pp, 26.8 x 31 cm, 8+

Explore the World!

- ▶ More than 80 physical and political high-quality maps
- ▶ All about continents and regions with their climates, cultures, peoples and economies

The International Space Station
by Dr. Manfred Baur
HC, 96 pp, 23 x 28 cm, 8+

Discover Space!

- ▶ Everything about the ISS and life in space
- ▶ See our home planet from a whole new angle

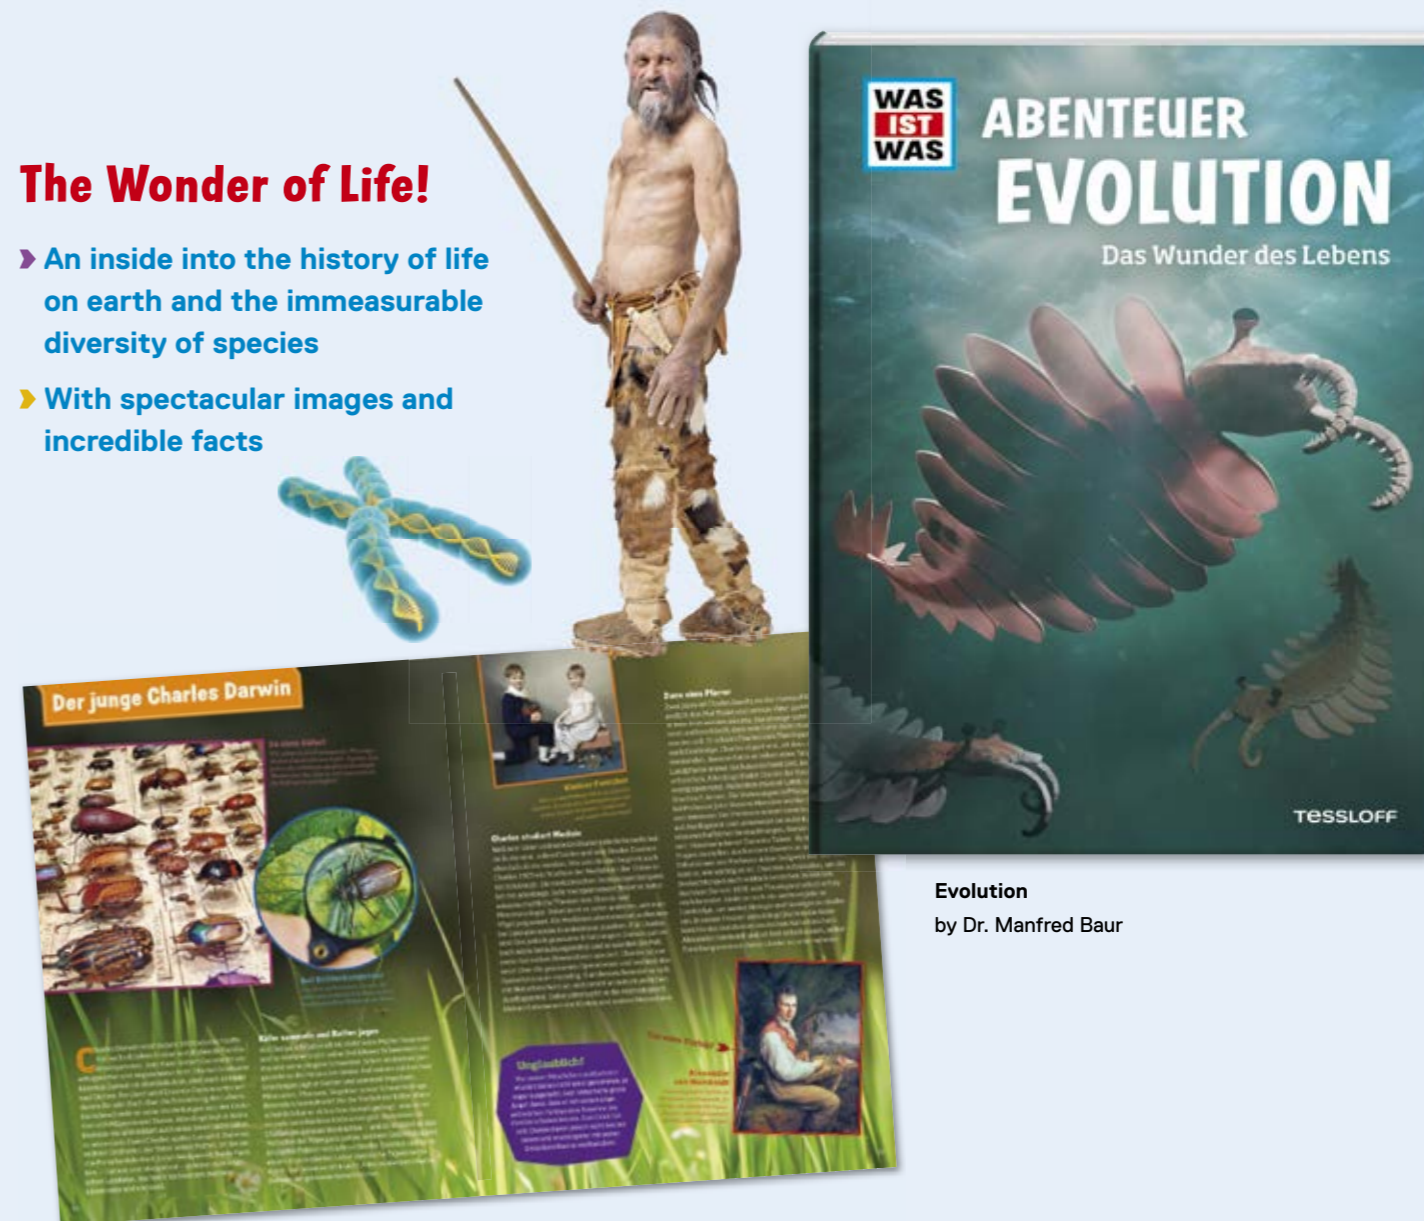

The Book
by Dr. Bernd Flessner
HC, 64 pp, 23 x 28 cm, 8+

From Idea to Book!

- ▶ Explains how a book is made
- ▶ Fascinating knowledge about one of the greatest cultural assets of mankind

The Wonder of Life!

- ▶ An inside into the history of life on earth and the immeasurable diversity of species
- ▶ With spectacular images and incredible facts

Evolution
by Dr. Manfred Baur

Wild and Beautiful!

- ▶ Information on 128 horse breeds
- ▶ Interesting facts about care, riding, history and horse breeding

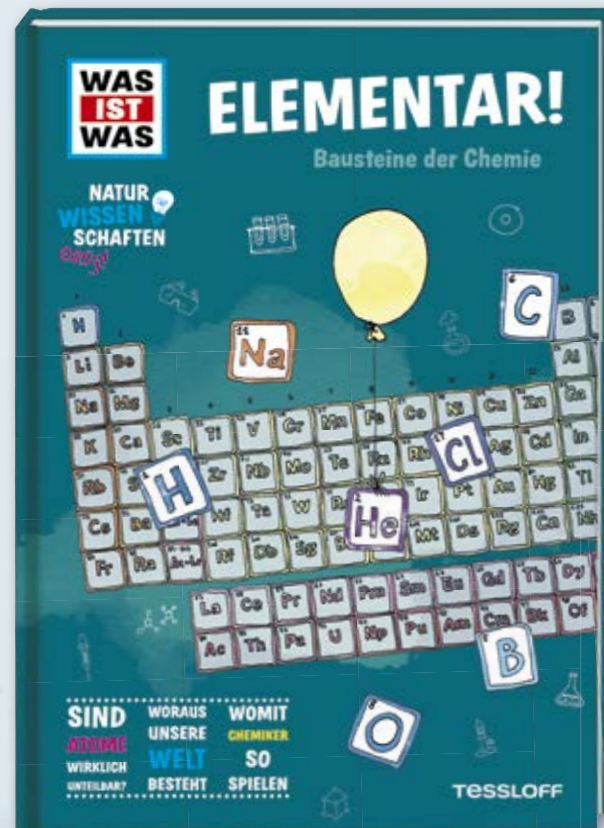

Horses & Ponies
by Silke Behling

NATURAL SCIENCES BOOK SERIES

Science? Ingeniously simple!

Natural Sciences easy! Chemistry* Elementary! The Components of Chemistry

► **What are elements, atoms and other particles?** What kind of laws do chemical reactions follow? Whether it's the structure of the periodic table, a look over the shoulders of famous scientists or insights into atomic models: With the help of entertaining texts and numerous illustrations, photos and information graphics, readers easily learn the basics of chemistry.

NEW
SEPTEMBER 2022
Vol. 2
Chemistry in Daily Life

Natural Sciences easy! Biology The Cell. Element of Life

Descriptive graphics

► **What is a cell?** How do cells feed, grow and multiply? How does a cell know what to do and where does it get its energy? Scientifically sound, yet entertaining, the book presents everything young readers need to know about the elements of life!

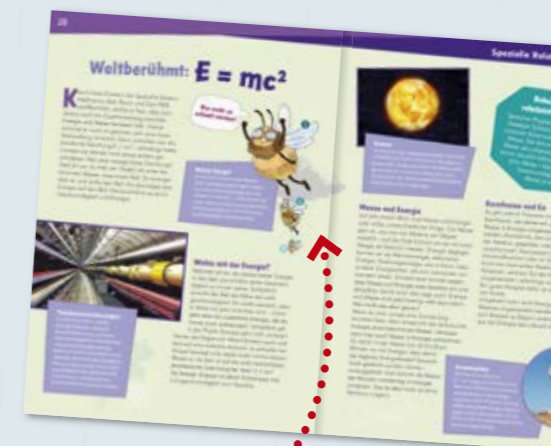

Entertaining texts

► **How were viruses discovered?** How do they spread? What can we do against dangerous viruses? Exciting and descriptive, this book shows that viruses are as old as life on earth. They „hijack“ cells of living beings, which can lead to diseases. But not all viruses are dangerous!

Natural Sciences easy! Biology Me and the Virus. Exploring the Masters of Transformation

► **How did Einstein work and where can we use his insights in our everyday lives?** Vividly and almost without formulae, but with a clear layout, easy-to-understand illustrations and exciting stories, this somewhat different physics book explains everything about gravity and what Einstein's Theory of Relativity is all about.

Natural Sciences easy! Physics Einstein's Universe. Theory of Relativity. Ingeniously simple!

Complex information in a fun way

► **What is light and what are quanta?** What are atoms made of? Welcome to the world of molecules, atoms and light. In an entertaining way, this unique physics book introduces readers to the mutability of quantum objects. After a brief introduction to the most important basics, the book explains Quantum Physics just for everyone.

Natural Sciences easy! Physics Light and Atoms. Wonderland of the Quanta

AUDIO PLAYS ARE REAL ALL-ROUNDERS! THEY ...

- ... promote children's creativity and language development
- ... can be listened to at any time at home or on the road, as a sideline or as a main activity
- ... inspire the child's imagination

In Germany, audio plays and audio books play an important role in children's everyday lives. Generations have been growing up with well-known and much-loved audio plays.

WAS IST WAS AUDIO ENTERTAINMENT

WAS IST WAS has been successfully publishing audio plays for young listeners for 20 years and entertains millions of children with exciting favourite topics.

KID'S AUDIO ENTERTAINMENT IS DIGITAL

Many children worldwide operate smartphones and tablets themselves and select their favourite audio plays from streaming services. WAS IST WAS audio plays are among the bestsellers here - for children worldwide!
