Amazing Graphics about Climate and Environment

How much Rainforest fits on this Bread?
Amazing Graphics about Climate and Environment

Content:

Is a cloth bag always more environmentally friendly than plastic? What is the ecological footprint of pets? And what causes less CO2? Streaming via the smartphone or the TV?

50 unique and vivid graphic illustrations, specially developed for this book, present climate and environmental protection from an extraordinary perspective. It quickly becomes clear that we should all care about the environment. The infographics help to understand facts more easily, to better classify contexts and provide new perspectives. A book that not only children will enjoy picking up again and again.

Title Information

Category: Educational
Age range: 8+ years
Artwork: With numerous illustrations and infographics
Format: HC, 96 pages, 23 x 27.8 cm
